TELEFUNKEN INTEGRATED CIRCUITS テレフンケン(ドイツ製) 集積回路

Manufactured by TELEFUNKEN (Germany) テレフンケン社 IC商品

TELEFUNKEN electronic Creative Technologien

MANUFACTURED BY TELEFUNKEN (GERMANY)

東光㈱は、テレフンケン社(ドイツ)の代理店です。

	Part No.	Contents
TV & VTR	U2200B-FP	VHF mixer and UHF IF post amplifier
	U2300B-FP	VHF/UHF TV tuner
	U4744B	SAW filter driver
	U4477B	VHF mixer and UHF IF post amplifier
	TDA4426	Video IF amplifier with AFC
	TDA4439	Multistandard video IF amplifier with AFC
	TDA4452	Multistandard video IF amplifier with VTR plug (DIN), ESD Protected
	TDA4453BG	Video IF amplifier for multistandard TV sets and VTR applications, high video bandwidth
	TBA120S	FM IF amplifier and detector
	TBA120T	FM IF amplifier and detector for ceramic resonator
	TBA120U	FM IF amplfier and detector for coils
	TDA4445A	Quasi parallel sound processor with quadrature demodulator
	TDA4480-D	Multistandard quasi parallel sound processor, ESD Protected
	TDA4481-C	Multistandard quasi parallel sound processor for mono TV sets, SCART switch and volume control, ESD Protected
	TDA4482-C	Quasi parallel sound processor for TV stereo application, ESD Protected
	U829BS	FM IF amplifier and demodulator for TV stereo sound processing
	U2829B	Double FM IF amplifier and demodulator for TV stereo sound processing, ESD Protected
	U2840B	FM IF amplifier and demodulator with SCART
	U4490B	Sound IF circuit and mixer for SAT-TV, ESD Protected
	TDA3505G	Analog controlled video processors
	TDA4555/56	Multistandard decoder for PAL, SECAM, NTSC, ESD Protected
	U4648B	I ² C bus controlled video processors for color TV receivers, ESD Protected
	U8060B	PAL decoder
	U8442B	Quad 6 bit D/A converter with I ² C bus
Power Control	TEA1007	Open loop power control for universal and condenser motors
	U208B	Open loop phase control of a.c. loads
	U210B	Speed setting with load current compensation of tacholess universal motors
	U211B	Feedback speed and torque control for universal and other a.c. motors
	U2008B	Low cost speed regulator, Load inrush current limitation for large motors, etc.
	U2010B	Universal motor control with load current compensation
	UAA145/146	Phase control in three phase network
	U490B	One shot power control for electric stapler devices
Telecomunication	U448B	Amplifier for piezoelectric microphones
	U4056B	Electronic speech circuit for telephone sets, modem and telephone responder
	U4058B	Low voltage speech circuit with line powered loudspeaker amplifier
	U4071B	Two tone ringer for telephone sets, signal generator in cars and toys
	U4072B	Two tone ringer for telephone sets, signal generator in cars and toys
	U4074B	Tone ringer interface
	U4076B	Three tone ringer for telephone sets, singal generator in cars and toys
	U4077B	Three tone ringer for telephone sets, signal generator in cars and toys
	U225B	Voltage limiter on symmetrical two wire speech branches in PABX
	U2147B	Broadband compander circuits for noise reduction in radio telephones
	U2790B	900MHz quadrature modulator for digital cellular radio systems
	U2796B	900MHz mixer for cordless telephones
Automotive	U243B	Warning or car direction indicator, Lamp load ≥10W
	U641B	Auto wiper control with two modes of operation, intermittent or wipe/wash operation
	U6048B	Long term timer for radiator fan control
	U5000M	ABUS
	U6080B	Dashboard illumination dimmer
	U2227B	Driver circuit for ignition transmitter

TOKO 48
